

Rotokauri School

Digital Citizenship Agreement

At Rotokauri School we use digital technology (computers, ipads...) to help with our learning. We cannot use computers and iPads until I have understood and signed this agreement. When we use digital technology, we need to learn to keep ourselves safe.

Keep it private

I don't give out things like your address or phone number.

I protect my password and log in details and keep them private.

I only use my log in and password, and log out when I am finished.

If someone else is logged in, I tell them and help them to log out.

I can only use my log in details at home if the teacher has given permission for homework.

Keep it safe

I treat computers and iPads with special care.

I only use the computers and websites when the teacher tells me to and the teacher is watching.

I use the website or app the way my teacher has told me.

I stay on the apps and websites my teacher has said I can use.

I do not talk to strangers online; I let an adult know if someone I don't know has tried to contact me.

Keep it kind, respectful, honest and fair

I always treat others like I want to be treated, even online.

I share the computers and iPads fairly.

I will help to look after the accessories.

I will help to make sure the iPads are charged ready for use.

Get help

If I see anything that upsets me, is mean or not acceptable at school I will:

- not show others
- turn off the screen
- get an adult straight away

I show honesty and tell my teacher if something has gone wrong.

I tell my teacher if something is damaged or broken.

We are smart digital citizens, we agree to follow the rules

We understand that if we break the rules, there are consequences:

- Our parents may be told
- We may lose the right to use the computers and iPads

We sign here to agree to the rules and responsibilities in this agreement
