BOT NEWS

Property Update

The Board of Trustees are really pleased with the arrival of the classrooms and the moving of Rooms 7 & 8, along with the new concrete paths. Thankfully everything has run smoothly and the contractors are currently on track, with council approval due next Monday so that the school can take over possession of the building and classes will be able to move back in. Rooms 7 & 8 will both be going back into our old block for now.

The new building should be handed over to the school in early June, obviously this will be weather dependent as the final component of the project is the realignment of the bottom driveway. This will include a turning bay at the end by the new block.

There will be a new fenced off area where Rooms 7 & 8 were previously. This is the beginning of our next project – the development/installation of the Outdoor Learning Hub.

Thank you for your patience at this time – unfortunately most of the decision making, progress and availability of contractors and products is out of the Board's control.

Due to the high level of heavy vehicles on the field during the building process, there is some surface damage (e.g. dug up grass) which is muddy. If your child/children are likely to play on the field we suggest putting an extra set of clothes in their school bag.

The Enviro area, behind Rooms 2 & 5, has had a slight change around and tidy up during the holiday as well. Thank you to Brad Kells and Josh from Vivid Developments for all the mahi to make this area functional and more aesthetically pleasing.

GENERAL INFORMATION

Medical Requirements

Please ensure that you come to the school office to fill out a medical form if your child requires medication during school hours. If your child needs to use an inhaler please ensure that they are brought to school, named and in a sealed plastic bag. No medications can be administered without written permission. If medication is held at school please take the time to check expiry dates and how much medication there is during the year so that, if needed, the medication will work correctly when administered. If your child has an allergy, is asthmatic or has other medical conditions that require a health plan please let the school office know so that these plans can be completed or updated (as per the Ministry of Health regulations).

Spellathon

Students are preparing for our upcoming Spellathon. Students will bring home a list of words to learn to spell, an information sheet and a sponsorship form to collect sponsors. Fundraising continues to go towards the installation of an outdoor education hub (astro turf with shade cover) on the school grounds. We would like all students to participate in the Spellathon and practise spelling the words on their list as an opportunity to improve spelling knowledge. We appreciate the ongoing support of families in helping to fundraise. The testing day will be on Friday 26th May, teachers will mark and return results to students as soon as possible so sponsorship money can be collected by Friday 9th June.

Learning to spell tricky words

When supporting children to learn to spell words with tricky spelling parts, begin with the syllables (claps) in a word, then the sounds, then look at how each sound is represented with letters.

For example the word although

- 1. <u>although has 2 syllables al/though (2 claps)</u>
- 2. <u>although</u> has 4 sounds a/l/th/ough (the mouth makes 4 different shapes to create these sounds.

3. For each sound, look at the letter or letters used to represent them. In the word although;

- the 'or' sound is written with the letter a
- the 'I' sound is written with the letter I
- the 'th' sound is written with two letters- t h
- the long 'o' sound is written with 4 letters- o u g h

4. Which parts are the tricky parts that need to be learnt by heart? Probably the first and last part of the word for a Year 5 student. It can be helpful to draw a little heart above each tricky part that needs to be learnt off by heart.

School Stream

This has been one of the means of communication that Rotokauri School has used for a few years now. Unfortunately this will be discontinued, effective from 1st June 2023. This has come about due to the doubling of fees by the provider. We are investigating other avenues of communication and will keep you updated when we find one that is suitable for the school.

CELEBRATIONS

Years 5-8 EPro8 Competition 2023

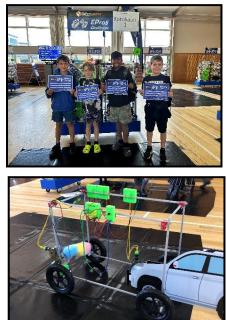

Term 1 was an exciting time for our EPro8 teams as we kick started the competition with our first ever in-school event. Teams worked together and earned points as they built wells, a bridge and a firetruck. The top two teams then went on to compete in the first heat of the interschool competition.

Both teams had their skills in problems solving and using electronics put to the test as they built a moving car wash. Our intermediate team lost out in the final minutes by 10 points but our Year 5 & 6 team placed second and made it into the semi-finals. In this round they did a great job of making a moving dance floor with flashing lights.

Congratulations to everyone who took part in this tough competition and a big thank you to everyone who supported the teams.
